# Apply for an assessment on specific ESG risk areas with Speeki Assessments

Our assessments are not for 'ESG' as a whole, but rather are broken down into separate risk areas because, at Speeki, we believe that these issues are so important they need to be considered independently. Realistically, no single 'ESG' scorecard can cover every single area. Companies that are serious about ESG and long-term sustainability will see the tremendous value in obtaining a scorecard for certain risk and focus areas.

We conduct our own independent review and verification of responses and supporting evidence through the use of a proprietary scoring methodology.

Once completed, you will be given your scorecard and some guidance for improvement. You will also be given an accompanying stamp for communications and transparency.

# What are the benefits of using external experts to assess third-party compliance?

## Objectivity and credibility

External experts provide a perspective that is free from internal biases.

## Expertise and experience

External experts often possess specialised knowledge and experience that might not be available internally.

## Resource management

Employing external experts allows a company to focus its internal resources on core activities.

## Risk mitigation

The expertise and experience of external experts allow them to spot issues that might be overlooked internally.

## Validation of internal controls

External assessments can validate a company's internal controls and processes.

## Increased transparency

Engaging external experts can help companies enhance transparency in their supply chain, showcasing to stakeholders their commitment to upholding ESG standards throughout their operations.

## Continual improvement

External experts can provide feedback and recommendations that assist a company in continually improving its third-party management processes.

# Are Speeki Assessments right for you?

- Want to focus on ESG and develop your practice to align with ESG concepts?
- Want to build governance and compliance programmes around key risk areas?
- Want to know if your efforts are effective and meet global best practices?
- Want to show national bodies that you have governance and compliance under control and that it is a focus for your organisation?
- Want to optimise customer audits of your governance and compliance by easily proving what you have built through an scorecard?

# Obtain an assessment level

Obtaining a scorecard is a simple process of completing an online questionnaire focused on your company's policies and practices around the selected topic. Submitted information is reviewed by our team of experts, who then assign an assessment level of either Platinum, Gold or Silver.

## Process

The Speeki Assessments is a streamlined eight-step process to complete when you are ready. Each step has instructions for guidance.

- 1 Create account or login
- 2 Browse a topic
- 3 Purchase a service
- 4 Prepare policies and protocols
- 5 Complete online questionnaire
- 6 Upload or link to required policies and protocols
- 7 Await review and follow-up
- 8 Receive your scorecard

# + + What is included in our Assessment?

## **Silver**

A highly-regarded assessment for businesses in the process of implementing their ESG initiatives

## **Gold**

An excellent assessment where nearly all ESG initiatives are in place with some in progress

## **Platinum**

An exemplary assessment for organisations with comprehensive and effective ESG initiatives in place
